Objective

Highly motivated aspiring Python Developer with experience in Django, databases, and object-oriented programming. Looking for a collaborative position where I can develop efficient web applications.

Education

MCA (Pursuing) – STES's Sinhgad Institute of Management, Pune	2024-2026
BCA (CGPA - 8.25) – MES's Abasaheb Garware College, Pune	2021-2024
12 th HSC (85.17%) - MES's Abasaheb Garware College, Pune	2021
10 th SSC (85.80%) – L.B.K.C. High School, Pune	2019

Technical Skills

Languages:	Python, SQL, HTML, CSS, JavaScript
Frameworks & Libraries:	Django, Bootstrap, Django ORM, SQLite3, os, re
Deployment & Web Tech:	GitHub Pages, Streamlit, AWS
Tools:	VS Code, Jupyter Notebook, Git, GitHub
Soft Skills:	Problem Solving, Collaboration, Adaptability, Critical Thinking, Communication

Projects

1. Nagarik Aavaj - Citizen Complaint Routing Platform

- Python, Django, SQLite, HTML, CSS, JavaScript
- Developed a multi-featured complaint management portal for efficient citizen grievances processing in three stages: Citizen → NGO → Government.
- Deployed a dashboard for different roles involving more than 3 user categories (citizens, NGO representatives, and government officers), facilitating access rights based on user roles.
- Conceived the design of complaint tracking system that provides real-time monitoring and automatic escalations, saving approximately 40% follow-up duration.
- Facilitated email alerts for informing users at each stage of complaint processing process.

2. Smart Verdict – Law Firm Website

- Python, Django, SQLite, HTML, CSS, JavaScript
- Created a website for a law firm that acts as an online office to provide legal services, including profiles of lawyers, practice areas, and scheduling consultations with clients.
- Created custom Django models to allow for content management through the admin panel, allowing nontechnical people to edit information about the firm, success stories, and members of the team without touching any code.
- Set up a contact form with validation on the server side, CAPTCHA verification, and email settings to avoid spam and secure lawyer-client interactions.
- Designed a mobile-first website optimized for multiple devices (at least five).

3. Epic Blogs – Blogger Website

- Python, Django, SQLite, HTML, CSS, JavaScript
- Created an elaborate blogging site with all CRUD functionalities, providing a scalable platform for both professional and personal blog writers.
- Created a robust security feature that had role-based authoring such as admin, author, and reader, giving different access levels to blog writing and moderation.
- Incorporated several interactive functions such as replies to comments, real-time searches, dynamic category selection, and pagination in posts.
- Coded an efficient database schema with foreign keys relating to many-to-many, one-to-many among other data models for users, posts, comments, and categories in project.

- Utilized responsive design in front-end development with the aid of grid and flexbox layout in CSS for a fluid interface view on all platforms.

4. Portfolio Website

- HTML, CSS, JavaScript | Responsive Design
- Created an engaging personal portfolio website that acts as a central location to reach out to recruiters.
- Included project-based interactive cards that contain technologies used and demo/repository links that can be easily accessed by users.
- Added smooth scroll function, mobile-friendly navigation bar, and improved page load time for better user engagement.

Internships

1. UptoSkills – AI/ML Intern (Current)

- Currently pursuing AI/ML internship, building Python-based machine learning models and exploring deployment strategies.

2. VaultofCodes – Python Intern (09/2024 – 10/2024)

- Developed Python-based applications and scripts, focusing on clean code practices and problem-solving.
- Gained hands-on experience with core Python concepts, data structures, and debugging techniques.

3. Sync Interns – Python Intern (03/2023 – 04/2023)

- Built Python projects focusing on logic building, function implementation, and basic application development.
- Practiced version control and collaborative coding fundamentals.

Extracurricular

1. National Service Scheme (NSS)

- Completed 3 NSS camps at college level
- Received Best Group Award in a cultural program at NSS camp

2. Police Administration (Vishrambaug Police Station, Pune – Experiential Learning Program)

- Participated in hands-on learning with local police administration

3. Worked with Various NGOs

- Collaborated on community service and social welfare projects

Certifications

NASSCOM Python – Coding Ninjas | March 2021

TCS iON Career Edge – Young Professional | October 2021

Hobbies

Travelling & Hiking | Digital Photography
